

ACRYLIC MIRROR BROCHURE

Acrylic Mirror | Perspex Mirror Sheet

Acrylic mirror sheet, or Perspex mirror, is intended primarily for areas such as interior fittings for decoration, display and point-of-sale, visual merchandising, store design, applications in the food service industry, sign material industry and where safety requires the light-weight and shatter resistance of acrylic plastic sheet, such as hospitals, prisons, kindergarten.

Other successful applications for acrylic mirror include use as Mirror Stickers, Garden & toys mirrors around the home & School decor.

Our acrylic mirrors are of the highest commercial quality available and offer impact strength of around 17 times greater than that of glass in equal sheet thickness, and are manufactured with the industry's toughest protective back-coating - which helps to protect the acrylic mirror against scratching during general use and preparation.

Available in silver, a range of vibrant colors and amazing sheet effects, we can supply acrylic mirror sheets and cut pieces from stock.

STANDARD SIZE:

1220x2440MM / 48" x96"

1220x1830MM / 48" x72"

CLEANING INSTRUCTIONS

Surfaces of items made from acrylic mirror should not generally require cleaning until after fabrication and before packaging. If however any surface decoration process is planned such as screen printing it is advisable to wash the sheet surfaces to be decorated with clean, fresh water using a chamois leather or soft cloth. This has the advantage of removing all traces of static charge from the sheet after removal of the film which might otherwise attract dust. For all general purpose cleaning operations, acrylic mirror should be washed simply with clean cold water to which a little detergent has been added. The use of any solvents such as methylated spirits, turpentine, white spirit or proprietary window cleaning products is neither necessary nor recommended - and may cause irreversible surface damage.
